EXAMINER'S REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest a multilayer film comprising a biaxially oriented polypropylene layer, a first adhesive layer, and a non-crystallizable, amorphous polyester surface layer (claim 35) or the recited method of making said film (claim1).

Specifically, the DAVIS ET AL references teach the use of crystallizable amorphous polyesters in the surface layer and therefore fail to suggest the use of non-crystallizable amorphous polyesters in the surface or cap layer.

- 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
